## Nurse Control Panel

### Nurse Control Panel

In the case of an emergency, a written notification will appear indicating the type and origin of call, accompanied by an audio alert. The system builds a priority depending on the call type and displays them on the monitor. All calls, emergency calls, WC calls, and nurse presences, can be tracked on the panel and remote access.

The system has no limit on the number of beds that can be connected. LAN based technology for the connection between units of the system. All kinds of transactions passing through the system are logged and can be reported in detail when required.

- 99.9% stable system thanks to Linux base structure
- Reliable structure with Oracle MySQL database
- Incoming Calls are shown in order of priority
- Customizable audible alerts
- Analysis of the number of calls received in real time on the screen of service personnel and the number of calls received daily are system failure messages
- Written communication between nurse panels
- Night service feature allows call-forwarding to another panel
- Call reporting
- Can customize room names

#### Technical specification

ZKRUNCWRNCSPC18

Screen size (inches)	18.5 inch LED Display All in One PC
Display features	1024x768
Processor information	Intel Bay Trail J1750 2.41 Ghz Dual Core
Operating system	LINUX OS
Capacity:	500 GB 7200 RPM SATA 3.5" HDD
Memory	2 GB DDR3 1333 MHz
Weight (g)	3.2 kg.
Width (mm)	485 mm.
Depth (mm)	39 mm.
Height (mm)	336 mm.
Connectivity features	Ethernet
Language	English, Spanish, Russian, Turkish, Custom
Power supply	110-220 VAC 47-63 Hz
Operating temperature / Humidity	10°C +50°C / % 30 %80 RH
Storage temperature / Humidity	20°C +60°C / %20 %90 RH
Input connection	1x Power on/off , 2xUSB 3.0, 1x Volume Button, 1xMic in, 1xSpeaker Out, 1x3in1 Card Reader (SD-MMC-MS)
Color	Black, White
Communication	RJ 45 jack Cat 6-7
Network	10/100 Mbit Gigabit Lan / 802.11b / g / n Wireless Bluetooth 4.0
