## Bedside Call Unit

### Bedside Call Unit

The Bedside Call Unit is used in patient rooms. There are backlit call and cancel buttons on the unit. In an emergency, a patient uses the call button to make an emergency call which appears as an alert on the Nurse Control Panel. Typical locations for this unit are on the walls of patient rooms and living areas as needed.

- The non VoIP handsets work through connection to this unit.
- Can be flush mounted. Ergonomic.
- RJ45 socket provides easy installation.
- High quality PC-ABS-FR raw materials
- Call and Reset buttons are backlit and easy to notice
