

ZKR Versatile

Basic Handset

Basic Handset

The Basic Handset allows the patient's condition to be reported quickly to the hospital staff in an emergency situation. It is easy to use and reinforced with auxiliary visuals. The device works through connection to the Bedside Call Unit. Easy-to-understand images indicate the functions of the buttons. Thanks to LEDs on the unit, the product is easily noticeable in the dark. These LEDs vary according to the last call made.

- Easy to use.
- Unit works through connection to bedside call unit.
- Easy to notice with LEDs on the unit.
- LEDs also show the last made call so the patient's condition can be seen on the handset.

Technical specification

ZKRUNCIPHS10100

Weight (g)	115 gr.
Width (mm)	20 mm.
Depth (mm)	50 mm.
Height (mm)	140 mm.
Operating temperature / Humidity	-10°C +60°C / % 30 %80 RH
Cable Lengh	1.5 Meter Spiral Cable
Material	PC-ABS-FR
Back Light	Yes
Check number of connections	1-RS 485
Color	White
